

SIGNATURE SERIES

THE SIGNATURE SERIES IS AN AWARD-WINNING MODEL AVAILABLE AS A TYPE I OR TYPE III AMBULANCE

Phil Braun, 2nd generation President of Braun Industries, once said: "Quality isn't cheap, but it should be affordable." In his honor, the Phil Braun Signature Series ambulance was introduced in 2012. In its first year, it won numerous awards including the 2012 EMS World Innovation Award and 2012 EMS Today Hot Product honor. The 150" module was a direct result of customer requests. It is pre-engineered and pre-configured to offer the best of Braun ambulances at an economical price. It is available in a Type I or Type III configuration.

THE SIGNATURE SERIES IS A PRE-ENGINEERED & PRE-CONFIGURED MODEL

With a reputation as the premier ambulance manufacturer, it was important to us to ensure our product lineup included a model that delivered the best of Braun at a lower price point than some

of our highly customizable units. We analyzed our most popular customer requests to curate a list of features and options that would come standard in a new ambulance. The result was the Phil Braun Signature Series, a pre-engineered and pre-configured model. By reducing time spent in the design process, we can deliver a premium product at a lower price point. It's quality made affordable.

The 150" Signature Series module maintains all of Braun's standards, such as our SolidBody™ Construction, EZ Glide™ Sliding Door, MasterTech™ Multiplex Electrical System, Eberhard Free Floating Latches, and VitalMax™ Lighting System. The exterior has been pre-configured to accommodate a stair chair. The interior has a second action area for a defibrillator and a customized front ALS cabinet with locking drug cabinet.

FEATURES/BENEFITS:

1. 150" Module
Pre-configured, ergonomically designed interior
2. Stair Chair Storage
Located on the exterior for easy access
3. Second Action Area
Included to accommodate a defibrillator
4. Customized Front ALS Cabinet
Featuring a locking drug cabinet
5. Lifetime Structural Warranty
Peace of mind that's transferable
6. LED Warning Light Package
Brighter and more efficient
7. MasterTech FleetConnect™ Compatible
Smart ambulance technology enabled
8. Choose Your Configuration
Available as either a Type I or Type III ambulance
9. Remountable
Save money over the life of your vehicle
10. All Aluminum Interior Cabinetry
Stronger and lighter weight
